

# Trumps Twitter Fact-checker

Fact

False

1. User presses one of the buttons, depending on whether they think the tweet is false or a fact

Fact

False

2. A fact-checker runs and tests the tweet to see it falls under one of three categories: 1. **False**, 2. **Fact**, 3. **Opinion-based**.

This tweet is false!

3. A message displays showing the results of the fact checker. The buttons disappear from the screen.
